# Quality Policy

TeleResources Engineering (Australia) Pty Ltd (Teleres) is committed to quality consulting, products and technical support, engineering and project management services to our valued clients in the Australian telecommunications industry.

Our quality objectives are satisfied stakeholders and continual improvement of the quality management system. These objectives are established, maintained and achieved through our objectives framework and risk profile management.

To assist us in achieving this we have established and are committed to maintaining a Quality Management System compliant to the requirements of ISO AS/NZS 9001:2016.

Through our communication and training programs, all stakeholders, including any relevant interested parties can gain a sound understanding of this policy and our quality management system.

This policy is established, implemented and maintained by the leadership team who ensures it is appropriate to the purpose and context of TeleResources in supporting our strategic directions and risk profile.

Maurie Dobbin

Managing Director
